## **Power Climber Wind Installs IBEX® Climb Assist in China**

SEATTLE/BRUSSELS — Power Climber Wind, a division of SafeWorks, LLC, has signed a contract with one of the largest WTG OEMs to supply and install the IBEX® climb assist systems for its Dashuiboluo windfarm located in Linxi, Inner Mongolia.

The IBEX® climb assist systems will be installed in 25 of the company's 2.0 MW turbines, which generate up to 50 MW of wind power in the region.

The market leading IBEX® climb assist is designed to retrofit and sets the standard for performance, safety, and ease of installation in any new or existing WTG. It puts complete control over the climbing effort and experience into the hands of the climber, delivering personalized performance, increased safety, and better productivity in any tower.

“We work in wind turbines globally and are honored to perform in China for the world's largest WTG OEM,” said Ruben Bake, Vice President & General Manager. “Our IBEX® climb assist product provides a perfectly scaled solution for them, by retrofitting the wind turbines and improving the site technician's safety and productivity, and ultimately the turbine performance.”

To experience the IBEX® climb assist system, contact our sales professionals at +32 3-451 05 00 in Europe & Asia and +1.206.394.5306 in the Americas.
